The Brief History of Persian

The history of the Persian language is divided into three eras: Old Persian (ca. 525 BC- 300 BC), Middle Persian (c. 300 BC- 800 AD), and Modern Persian (800 AD to the present day). The Persian language has been written with a number of different scripts during its history including the Old Persian Cuneiform (e.g. Bistoon inscription of the Achaemenid Darius I) and Middle Persian (Pahlavi) alphabets (e.g. *Husrō ī kavādān ud rēdak-ē* (خسرو قبادان و ریدک) written from the period of the Sassanian king Khosrow). After the coming of Islam in 642 AD, Persians adapted the Arabic alphabet to develop the contemporary Persian alphabet. The Arabic alphabet has 28 characters, but Iranians added another four letters in it to arrive at the current 32 Persian letters. Modern Persian appeared during the 9th century after this adoption of the alphabet and the borrowing of many Arabic words.

Persian—also known as Farsi by native Iranian speakers—is spoken **by more than 120 million people worldwide**. It is the national language of Iran, Afghanistan and Tajikistan, and is still widely spoken in areas that used to be known as Greater Persia: Uzbekistan, Russia and Azerbaijan. According to Omniglot, there are also significant numbers of speakers in other countries including Bahrain, Iraq, Turkey, Kuwait, Israel, Turkmenistan, Oman, Yemen, the UAE and the U.S.

It has often been described as a very soft, song-like language. Grammatically, it is a very approachable language to learn.

According to **Wikipedia**, Persian is among the oldest Indo-European languages, with a history stretching back to before 500 BCE. In the High Middle Ages it was already widely spoken, and was adopted for official governmental use by the Mongolian and Turkish rulers in what is today Turkey, central Asia and India. The Persian language had a long history of literature as Middle Persian before Islam, it was the first language in the Muslim world to break through Arabic's monopoly on writing. Famous Persian poets such as Hafiz, Rumi and Omar Khayyam remain influential in the West. Persian calligraphy remains a vibrant art form today.
